EXPERIENCE

Baylor University Talent Identification Program, Waco, TX — *Lead Resident Assistant*

June 2025 - July 2025

Served as a Lead Residential Assistant for Baylor University's Talent Identification Program, supporting gifted students in a residential learning environment. Helped create a positive, safe, and structured community by mentoring students, leading activities, resolving conflicts, and supporting daily program operations.

Target, Brandon, FL — Cashier, Starbucks Barista, Guest Services, Drive-Up, Cart Attendant

November 2020 - August 2022

Worked across multiple customer-facing roles, including cashier, Starbucks barista, guest services, drive-up, and cart attendant. Delivered strong customer service in a fast-paced retail environment while balancing a 40+ hour workweek as a full-time student-athlete, demonstrating reliability, time management, and a strong work ethic.

PROJECTS

Just Bean It — *Mobile App Development Project*

Tech Stack: SwiftUI, Supabase

Live Site: just-bean-it-website.vercel.app | **GitHub:** github.com/DrewBuild/JustBeanIt

- Designed and developed a mobile social app that allows users to discover, rate, save, and share local coffee shop experiences.
- Built the iOS application using SwiftUI with user-friendly navigation, profile management, post creation, ratings, and image uploads.
- Implemented user authentication and cloud-based data storage to support accounts, user profiles, posts, and saved locations.
- Structured the app with reusable components and organized data models to support future feature expansion.

North Star Santa — *Client Web Development Project*

Tech Stack: HTML, CSS, JavaScript, Sanity, Vercel

Live Site: NorthStarSanta.com | **GitHub:** github.com/DrewBuild/North-Star-Santa

- Designed and built a responsive website for a professional Santa Claus client to promote services, testimonials, gallery content, and bookings.
- Developed a clean, festive, user-friendly interface that helps visitors quickly learn about services and book Santa appearances.
- Built key site sections including Home, Testimonials, Gallery, Services, Helpful Hints, and Booking.
- Implemented and deployed a client-facing booking experience with calendar availability, customer details, and clean form formatting.

My Portfolio — *Personal Web Development Project*

Tech Stack: HTML, CSS, JavaScript

Live Site: DrewBuilds.com | **GitHub:** github.com/DrewBuild/MyPortfolio

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, education, and professional background.
- Built the site using HTML, CSS, and JavaScript with a focus on clean layout, readability, and simple navigation.
- Created project sections to highlight mobile apps, client websites, and personal web development work.
- Used GitHub for version control while refining the site's structure, styling, and overall user experience.
